

Mental Health Professionals

Our Mental Health Professionals are educated, experienced and trained to assist children, teens and adults in clinical and therapeutic interventions.

Rehab Specialists for Living Skills

Our Rehabilitation Specialists are trained and experienced in providing guidance and support in areas spanning from abuse and neglect, alcohol and drug abuse, juvenile delinquency, depression, and other family issues.

Substance Abuse Recovery Specialists

Our professional team of Substance Abuse Specialists is trained in evidenced-based treatment practices and guides those with substance abuse issues in a non-judgmental, compassionate and non-confrontational path to recovery.

Case Managers

Our case manager team helps individuals and their families establish supportive relationships of collaboration, mutuality, and interdependence in their community

Mission Statement

The Mission of Family Development and Intervention Services (FDIS) is to provide quality services to children, adults and their families who are challenged with behavioral health issues. We strongly believe in providing individualized client centered treatment to promote full recovery.

Goal Statement

It is the goal of FDIS to provide comprehensive, individualized and holistic behavioral health outpatient services to those individuals and families suffering from mental health and/or substance related issues in an effort to promote harmony within individuals, families, and the community.

Behavioral Health Services

FDIS's Behavioral Health Services are designed to help individuals and their families find ways to improve their ability to be productive, cope with life's problems, and have fulfilling relationships. Our services provide people with new skills to deal with problems, reduce conflicts and lead a healthy lifestyle.

Behavioral Health Services include:

- Assessment/Evaluation
